

The Four Pillars of Service

The Community Center regularly examines our role in our community and how we can most successfully meet those human service needs unmet by other organizations. A result of this process is that we update and refine our service delivery model.

As a Board, we are striving to better communicate to the public the value that we bring to the community. This effort has led us to develop the “Four Pillars of Service” at the Community Center. While we continue to offer multi-generational programming, we feel our services are better defined as being Prevention, Health & Wellness, Community and the Warming Center.

Prevention: Providing programs, activities and/or guidance that seek to reduce or deter specific or predictable problems. Protect the current state of well-being, or promote desired outcomes or behaviors.

Health & Wellness: Helping people to be active participants in managing their health and lifestyle. Focusing on the mental, physical, emotional and social components of everyday life to promote independent living and aging in place.

Community: Serving as the hub, or gathering place, for the varied and diverse elements of our local society. Providing support for groups to develop kinship, positive growth and a cooperative spirit to better our neighborhoods. We are building centered but not building bound.

Warming Center: We are the gathering place in the event of a local, community-wide emergency, especially a cold weather emergency. We will offer shelter, warmth and sustenance to those who need us the most in the event of a disaster.
